# *Mircea Eliade*

prozator, eseist, filosof

**110 ani de la naștere**

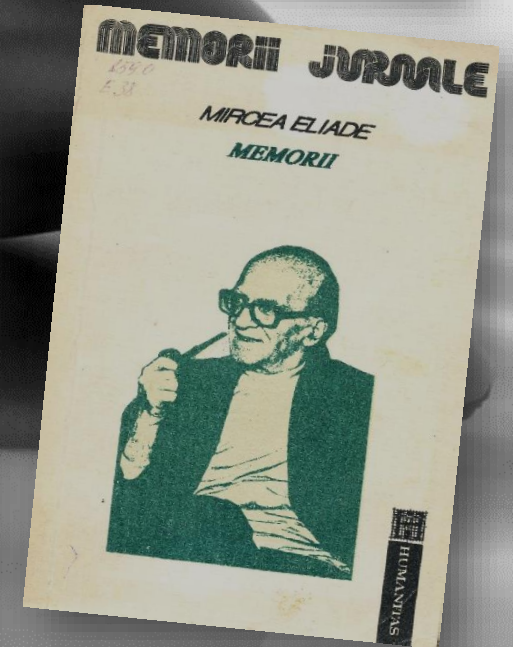

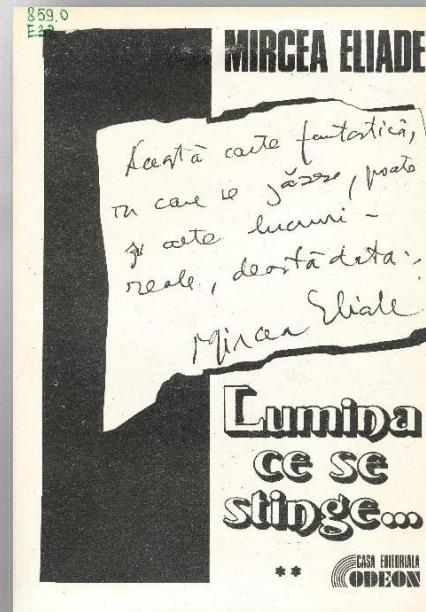

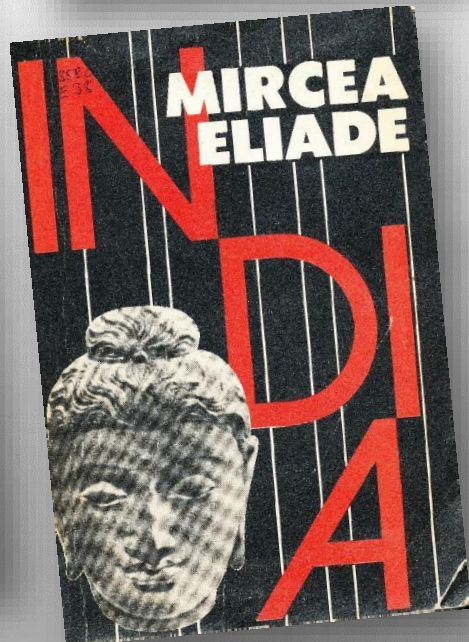

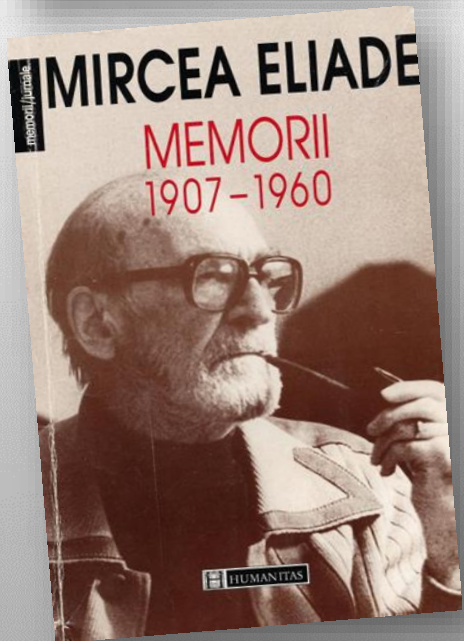

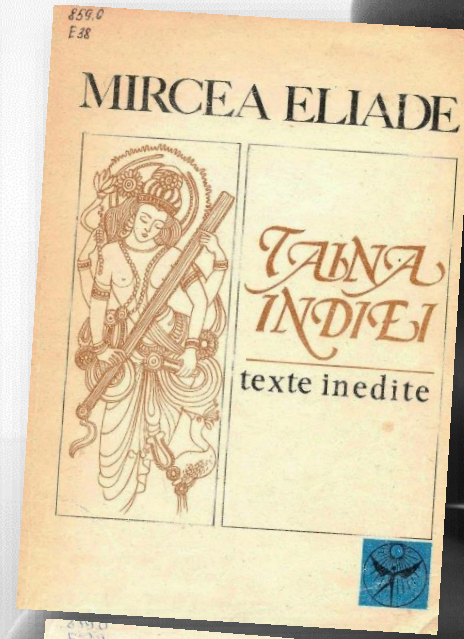

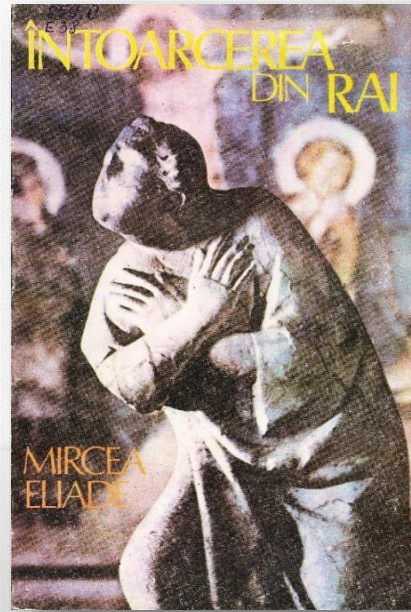

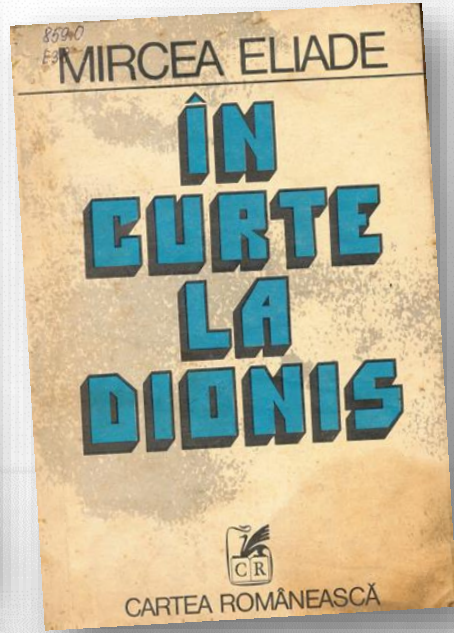

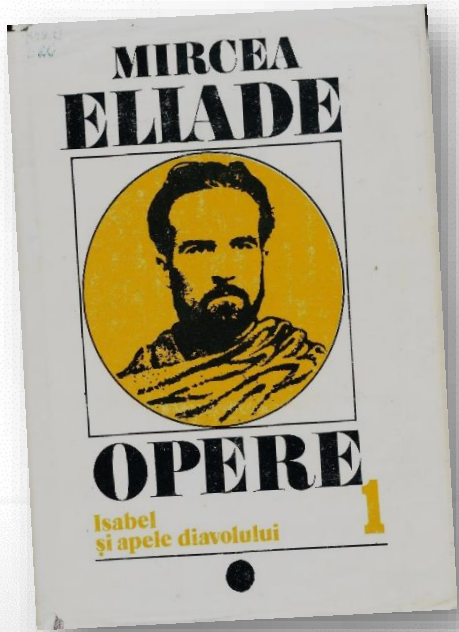

**(13 martie 1907 – 22 aprilie 1986)**

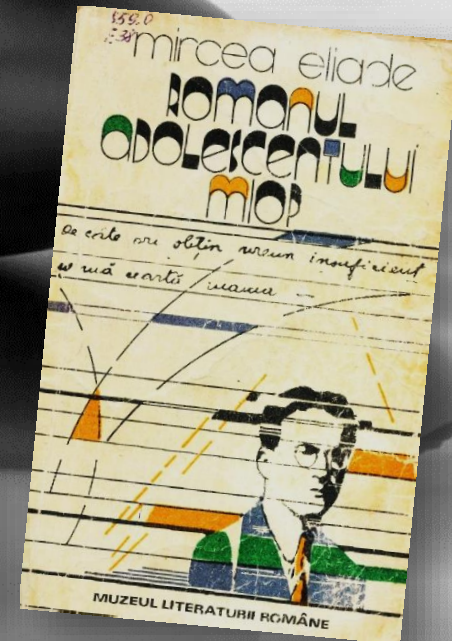

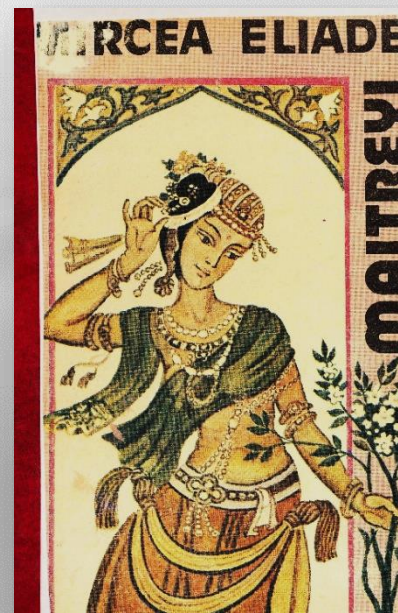

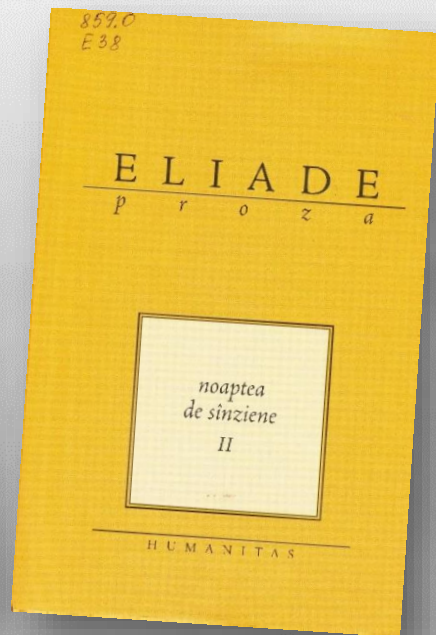

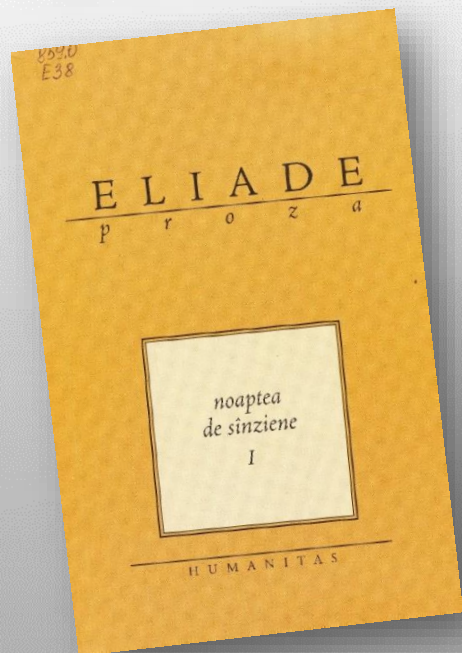

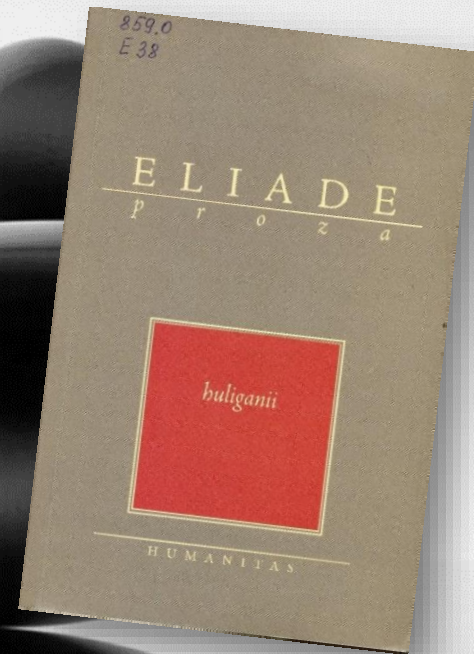

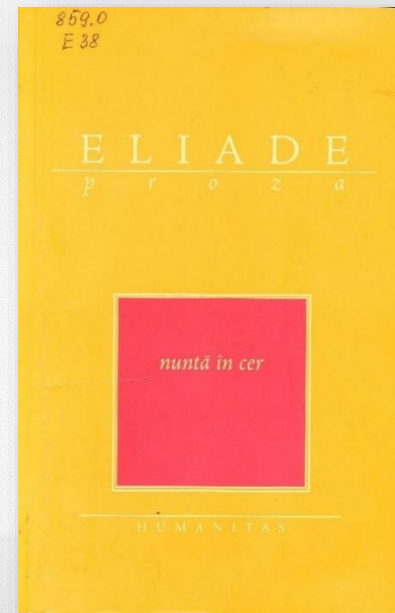

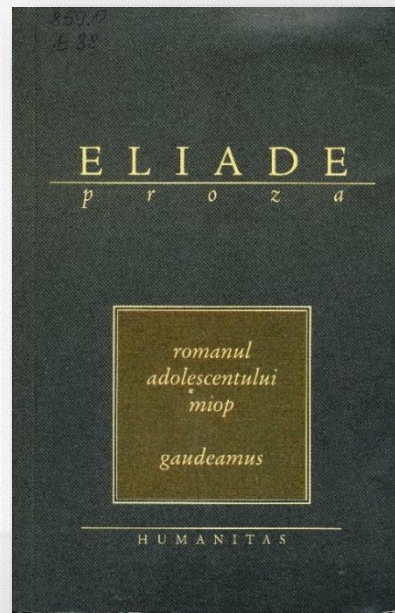

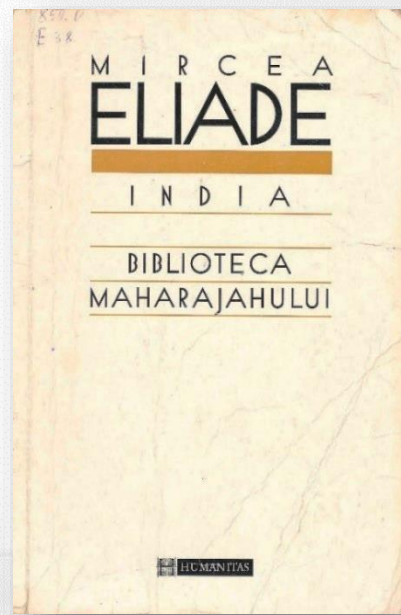

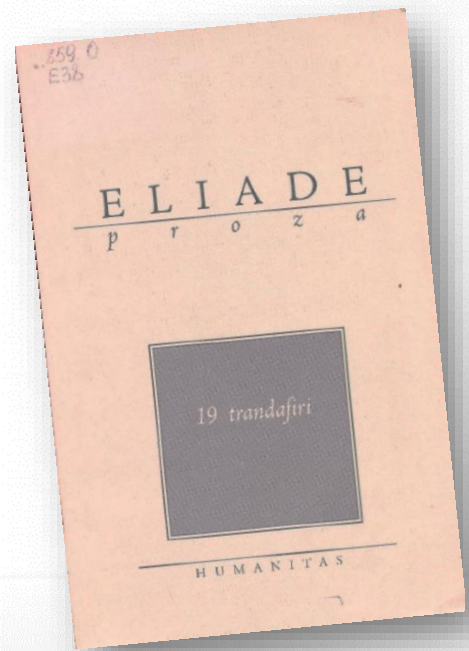

*„Singura justificare a unei existențe este viața din ea, intensitatea, fertilitatea, adâncimea ei. Bucuria, lumina, victoria, caritatea, depășirea, continuă depășire, speranța – toate acestea sunt semne că viața gălgâie acolo plină și organizată. Apreciez un om, o gândire, o operă – după autenticitatea lor; adică după gradul de apropiere de coincidența existență = creație.”*

**Mircea Eliade**

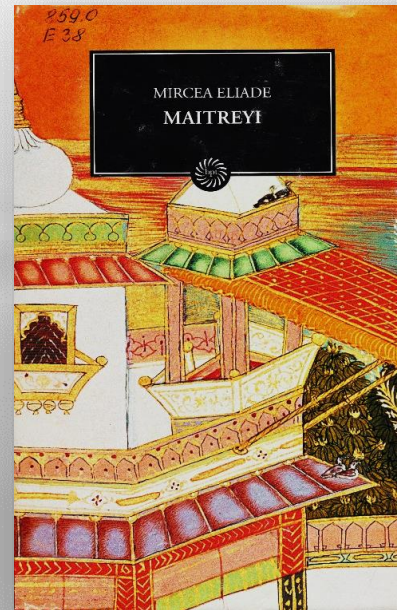

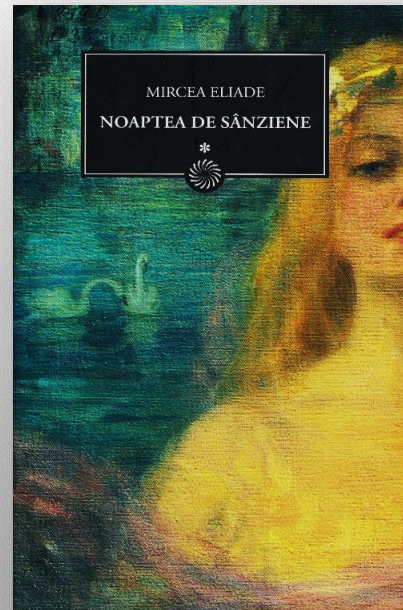

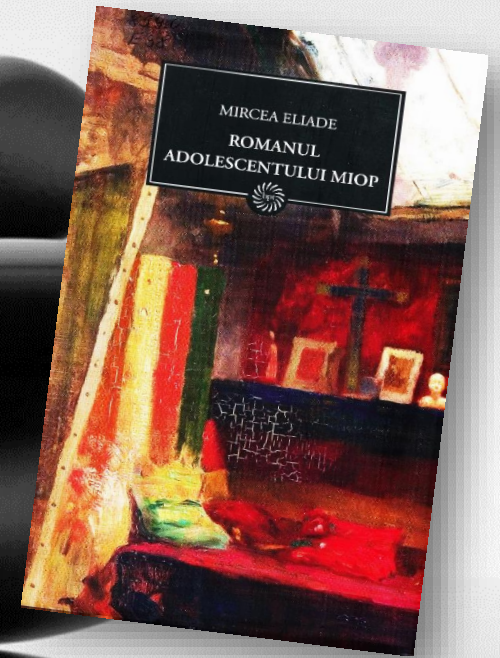

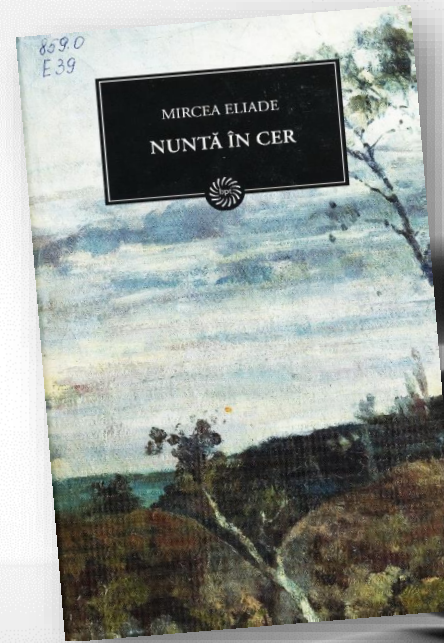

# OPERA

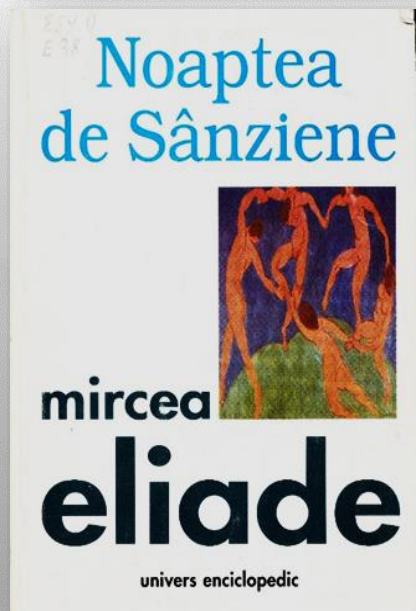

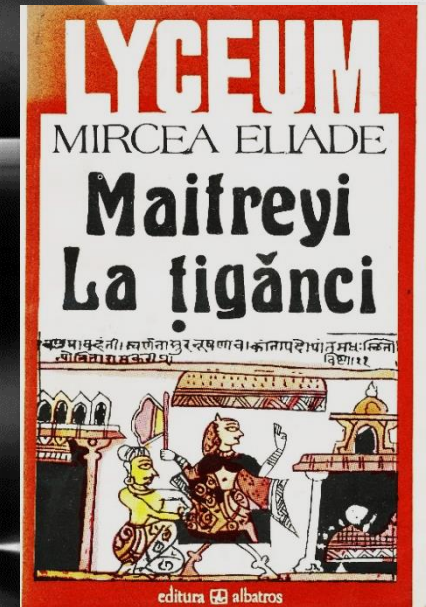

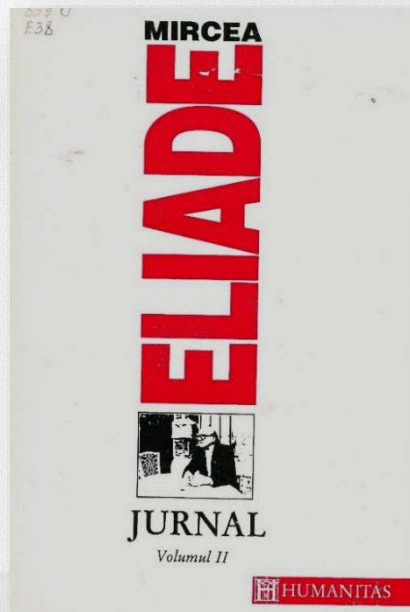

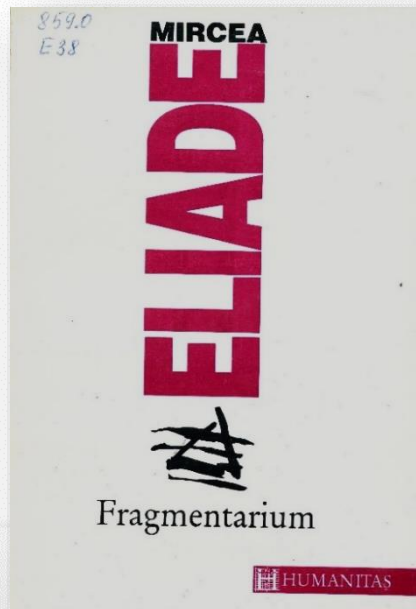

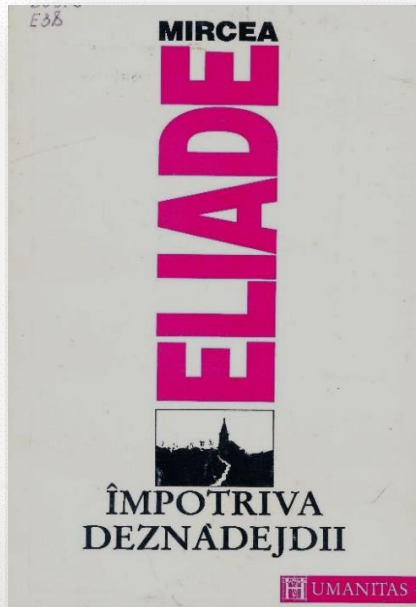

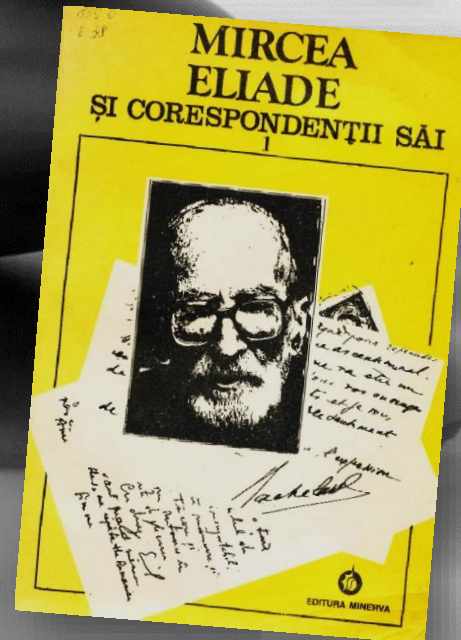

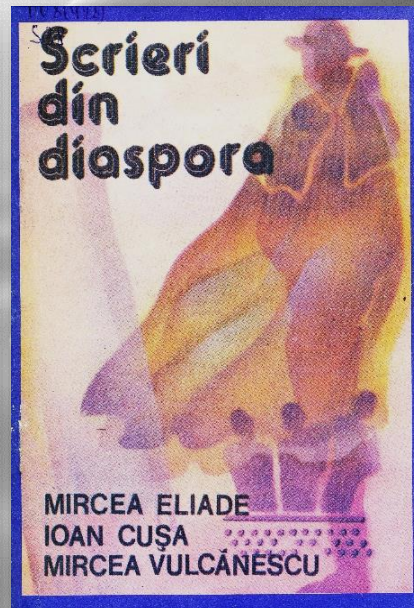

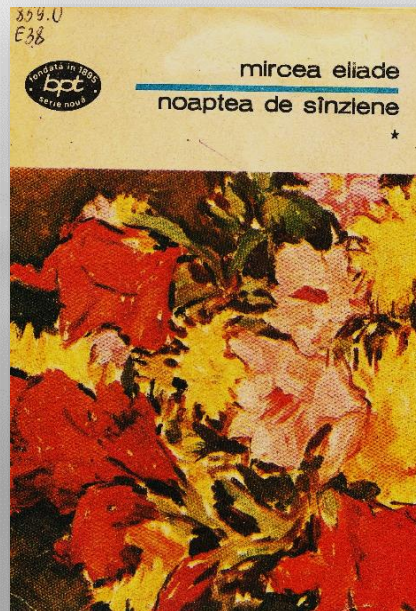

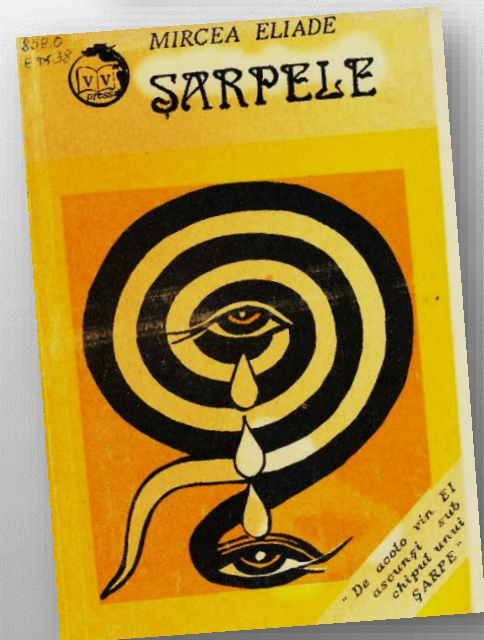

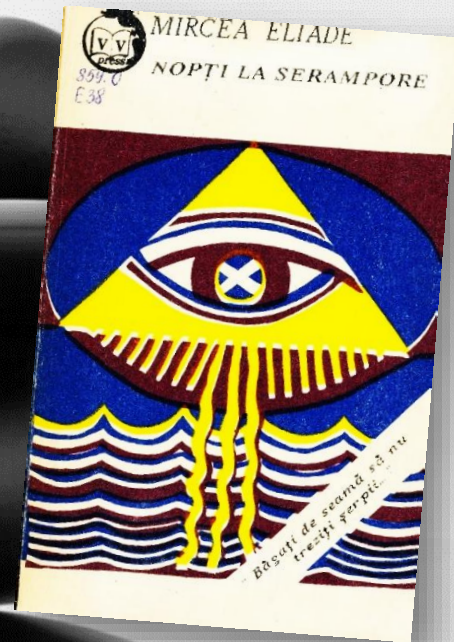

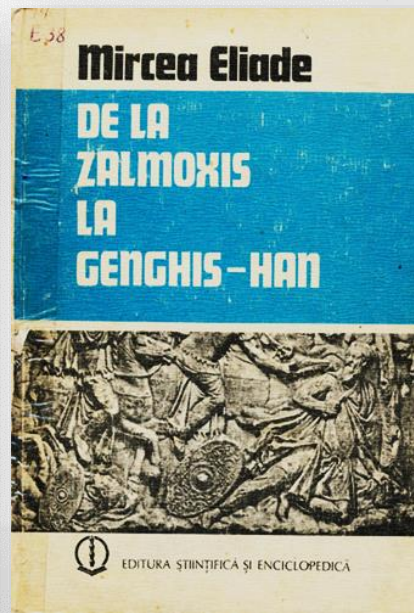

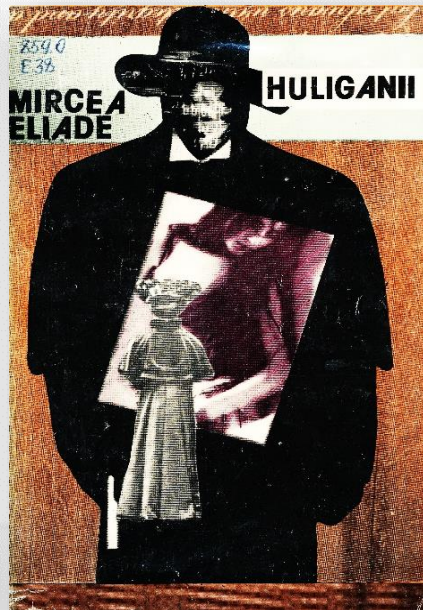

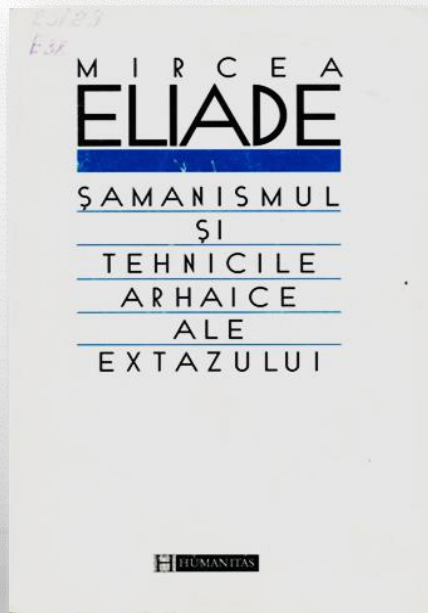

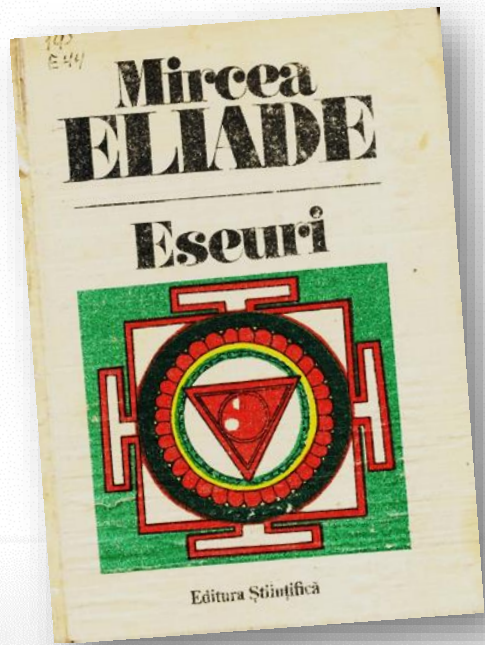

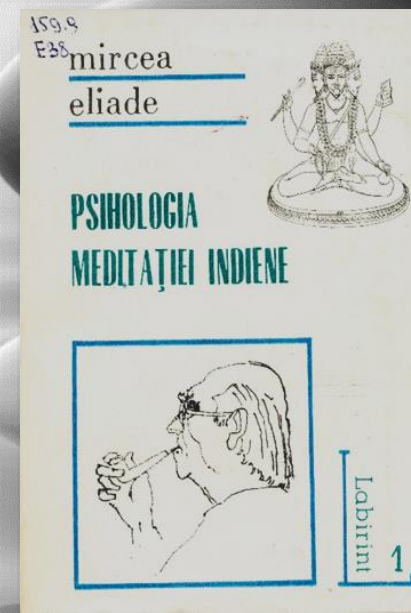

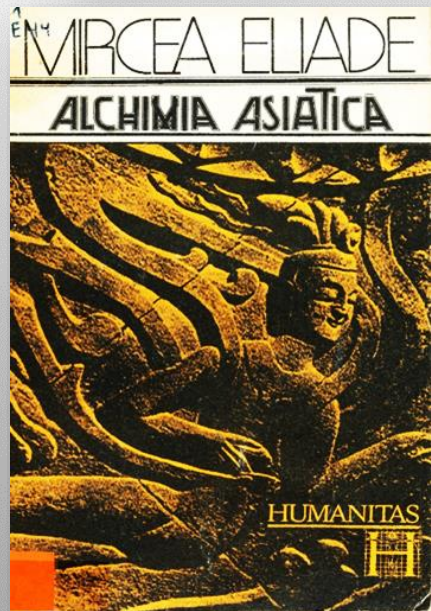

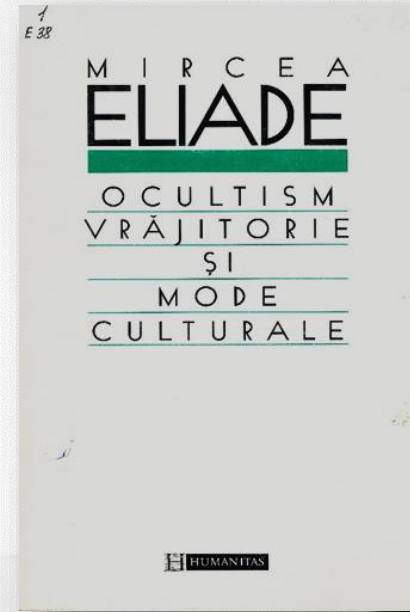

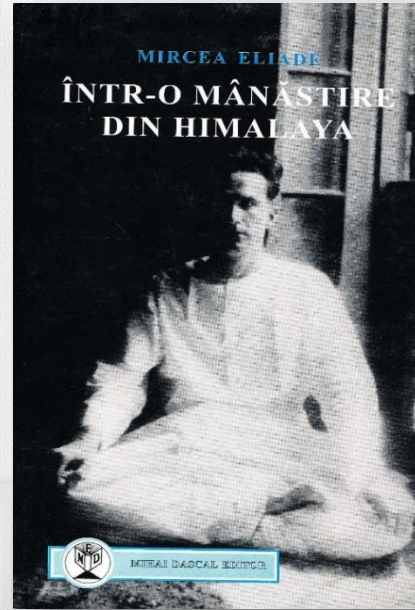

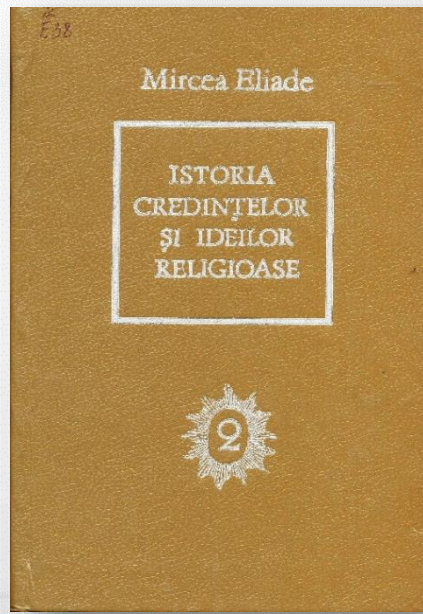

„Am visat întotdeauna un cititor non-conformist, care să nu se mulțumească cu lectura romanelor sau eseurilor mele, ci să-și păstreze curiozitatea intactă și pentru celelalte scrieri, mai puțin facile, se-nțelege, dar poate tot atât de semnificative.”

***Mircea Eliade***

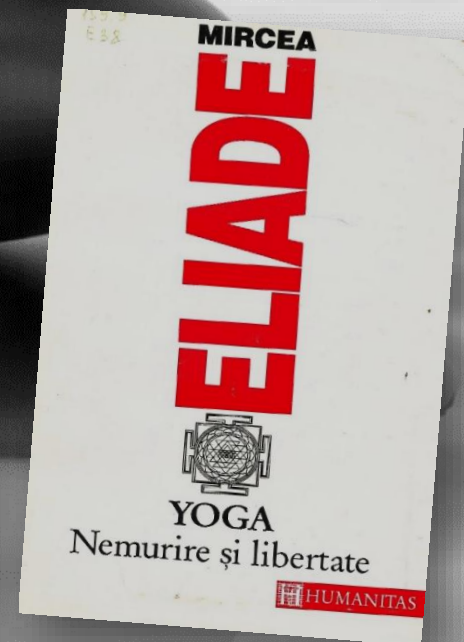

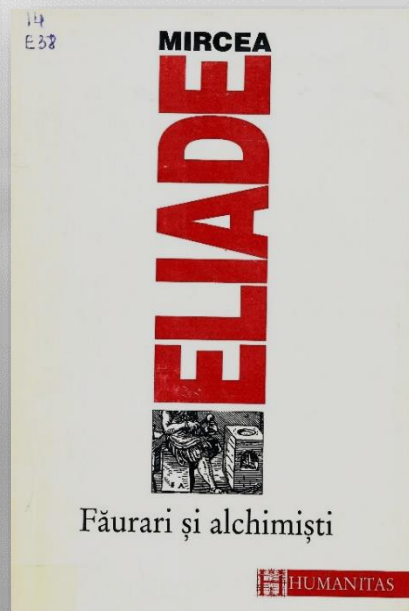

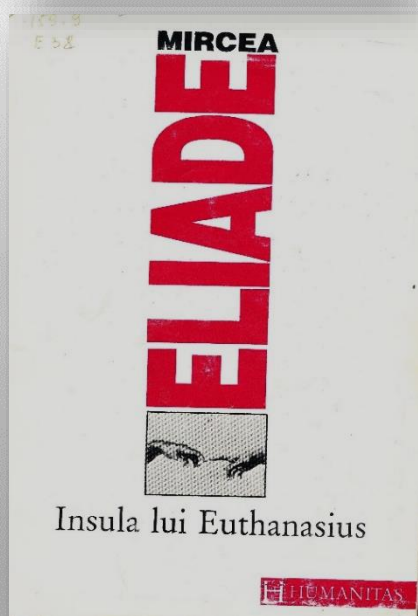

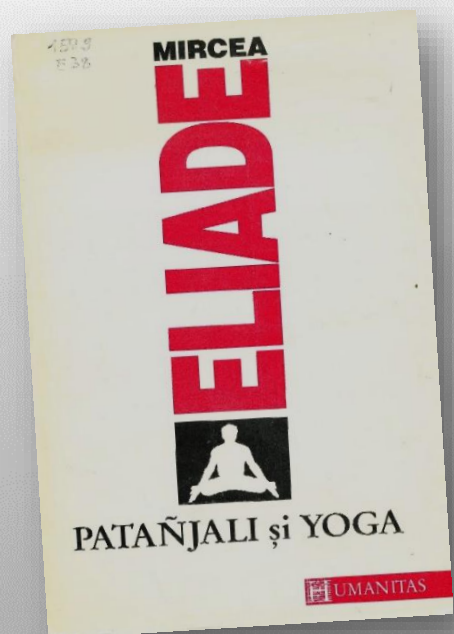

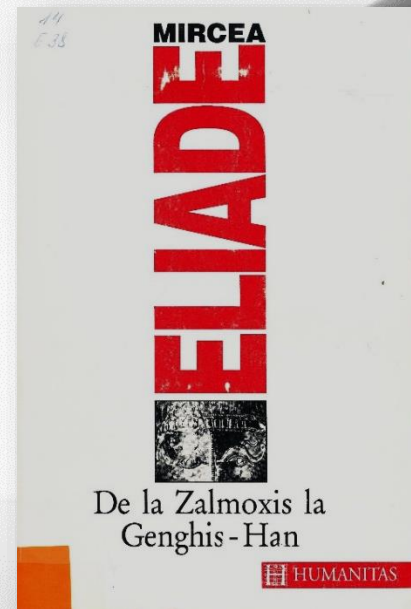

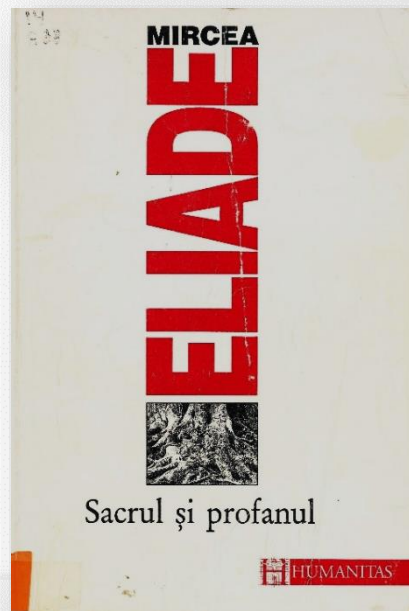

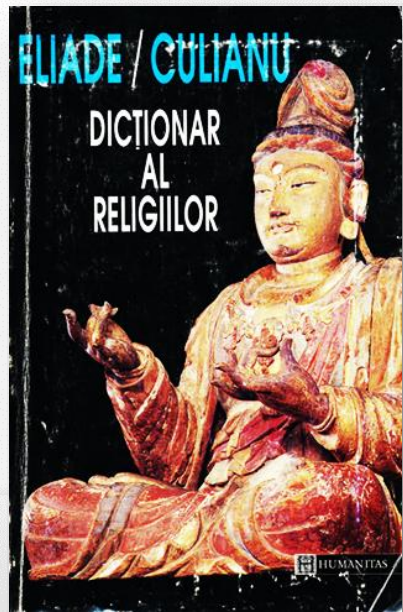

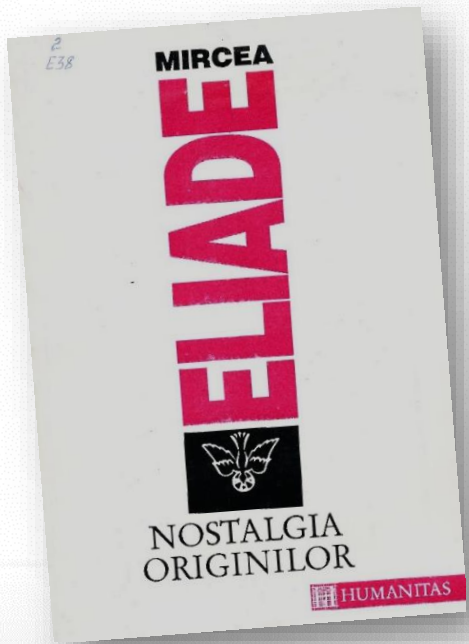

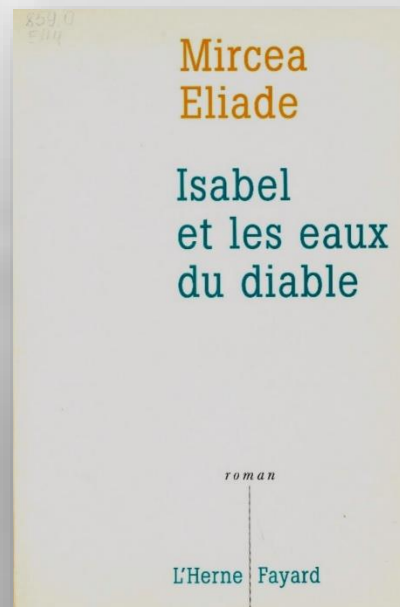

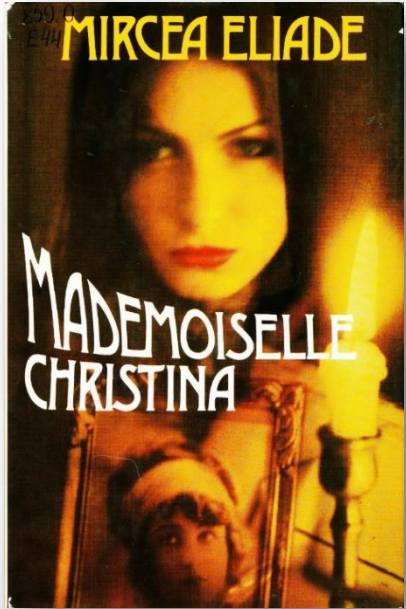

# TRADUCERI

„Toți acei ce au acces la o bibliotecă, la cărți, sunt niște inși mai buni decât alții, mai fortificați, iar durerile îi ating mai puțin și nefericirile trec mai repede.”

*Mircea Eliade*

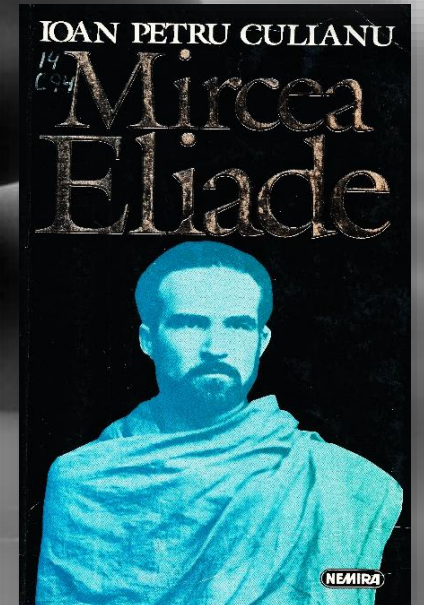

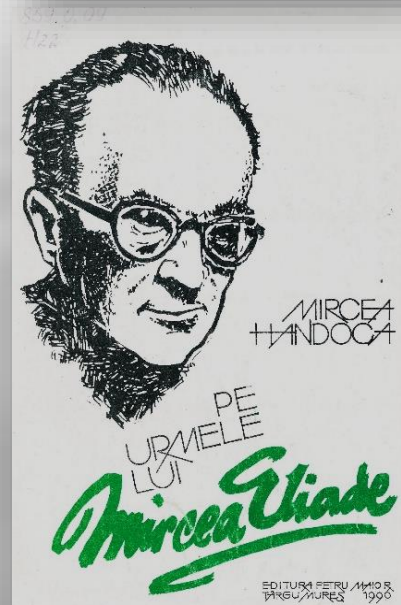

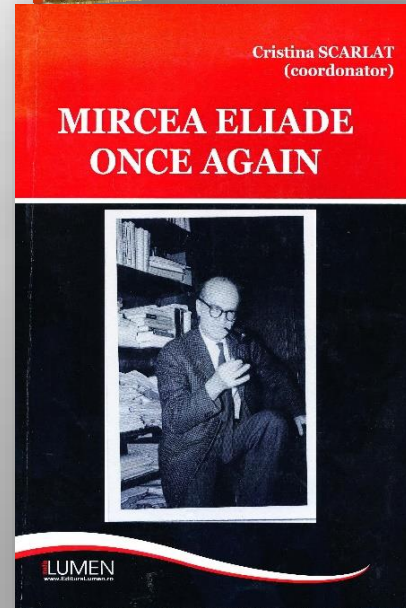

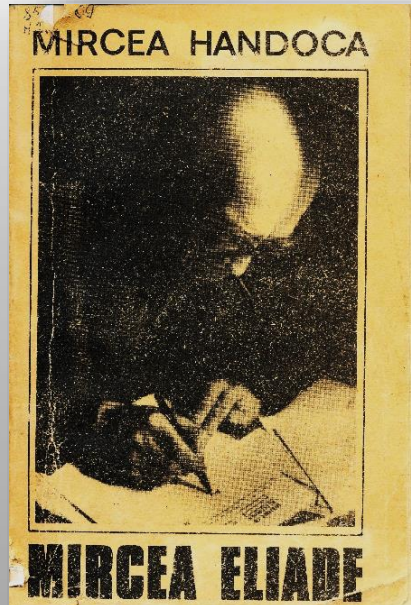

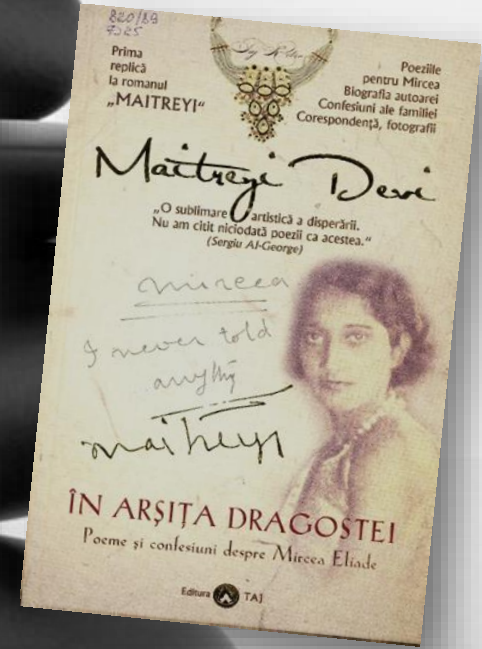

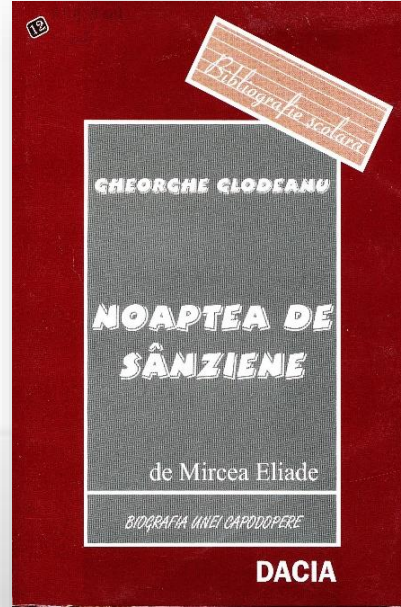

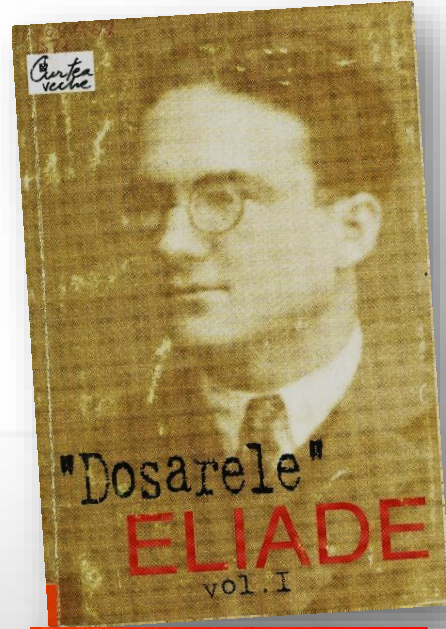

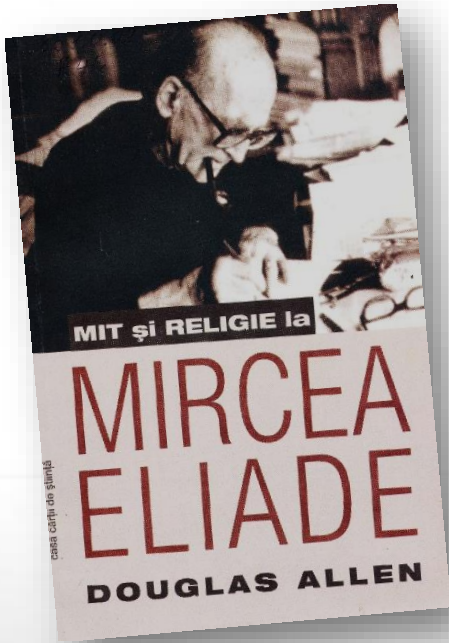

„Mircea Eliade este cu adevărat un fenomen al culturii românești din acest veac. Eruditul a cuprins și dezlegat istoria fiind un lorga al domeniului spiritual. Ca și autorul total al istoriei românilor, care își încercase posibilitățile în memorialistică, estetică, poezie și teatru, Mircea Eliade se dedică, spărgând tiparele și abandonând întâmplarea cotidiană, fecundului domeniu al prozei, oferindu-i fiorul dimensional cu eternitatea spiritului. Prozatorul devine astfel unic în literatura română precum savantul este desăvârșit în descoperirea genezei și încrengăturilor credințelor umanității.”

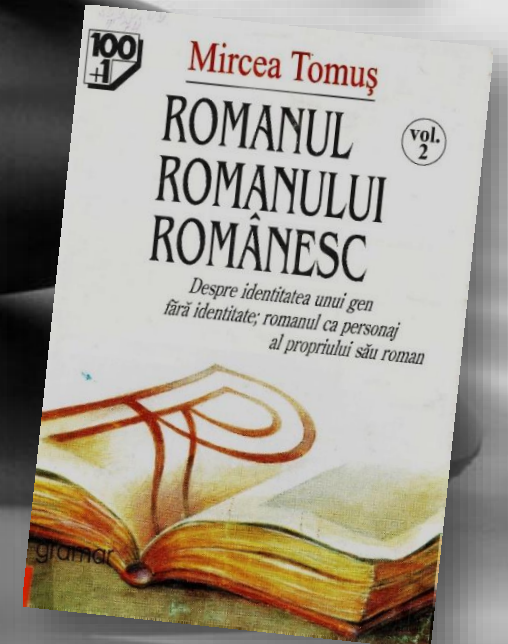

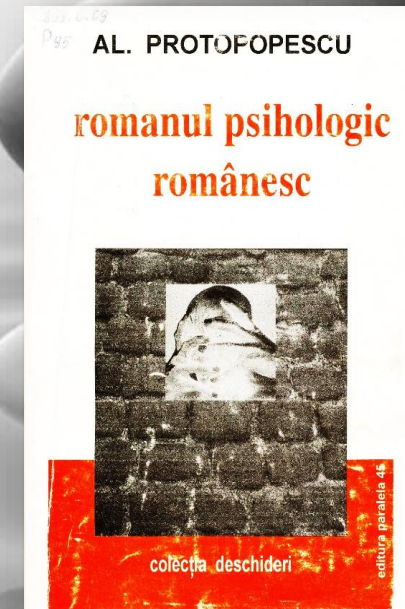

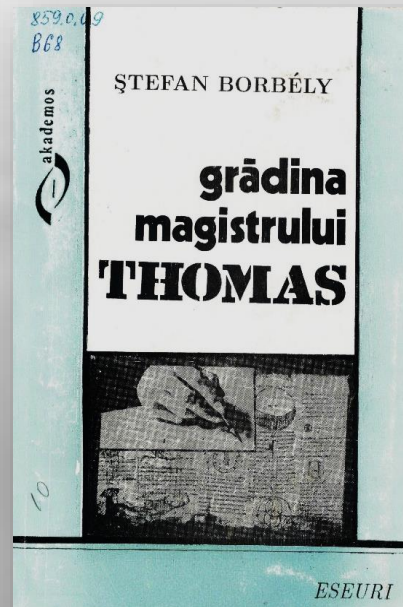

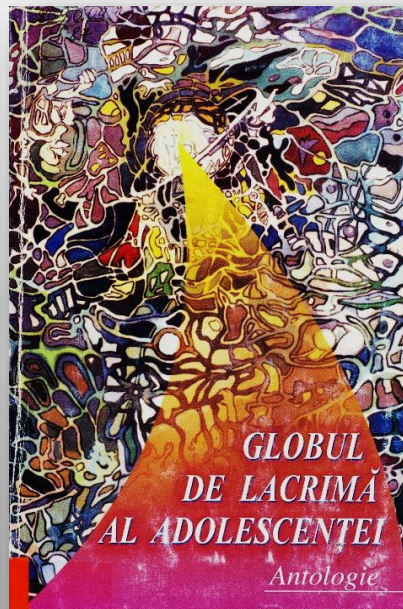

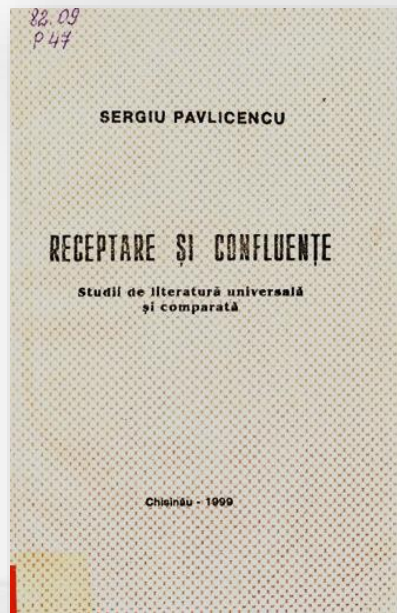

*Victor Crăciun*

# REFERINȚE CRITICE

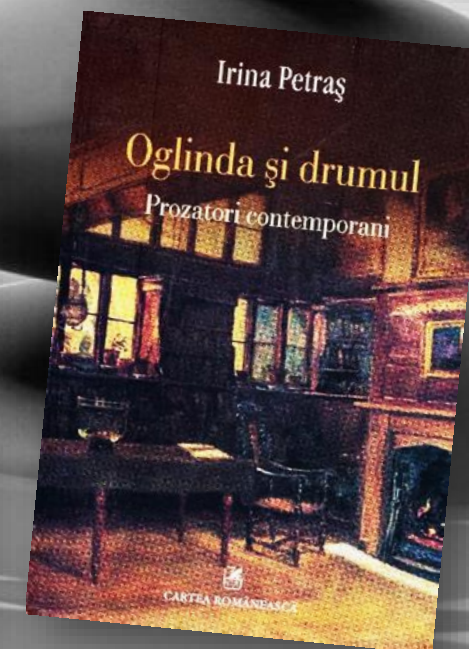

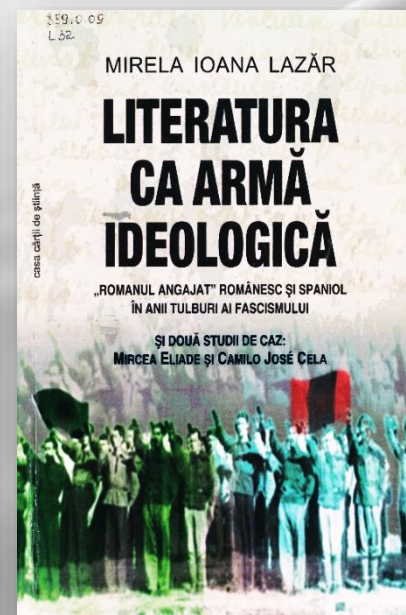

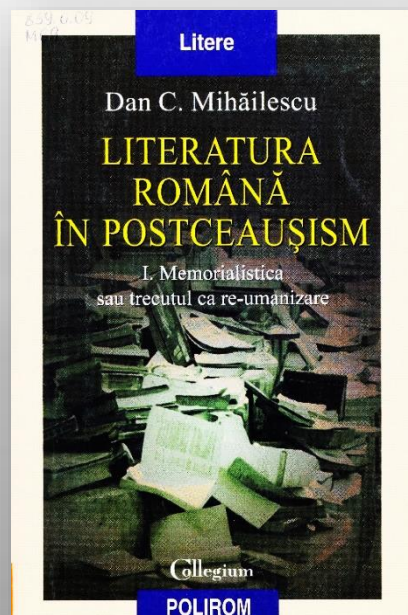

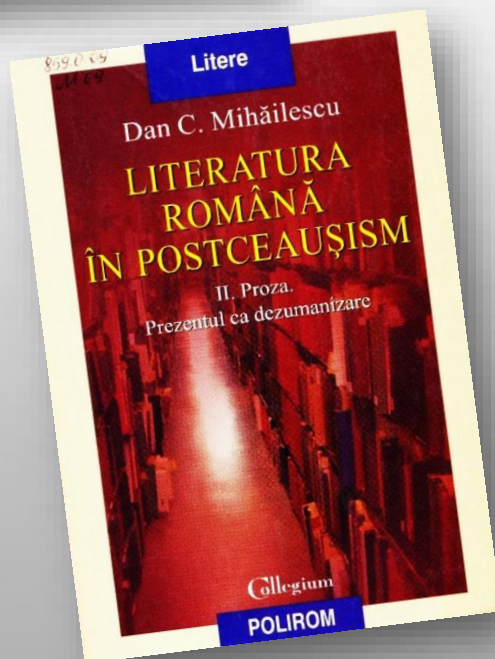

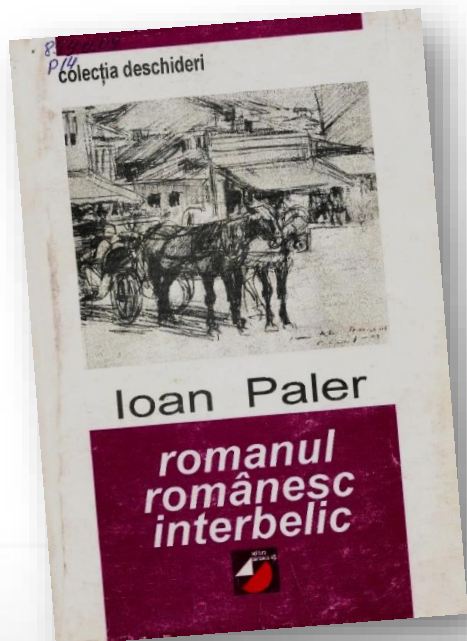

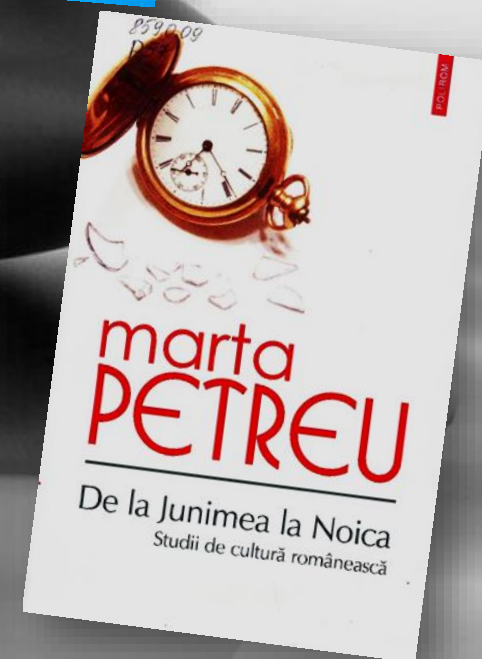

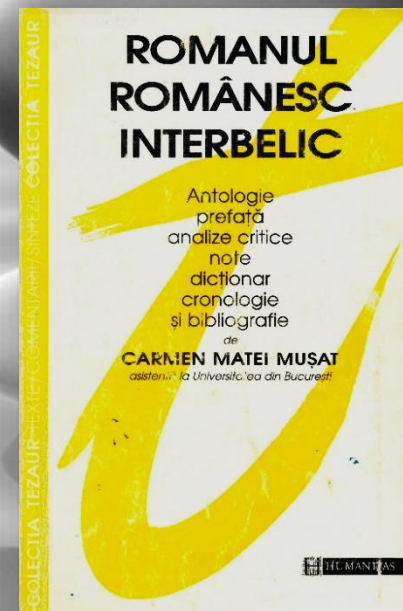

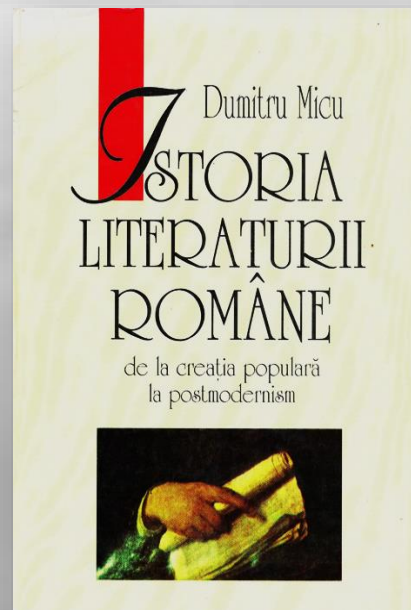

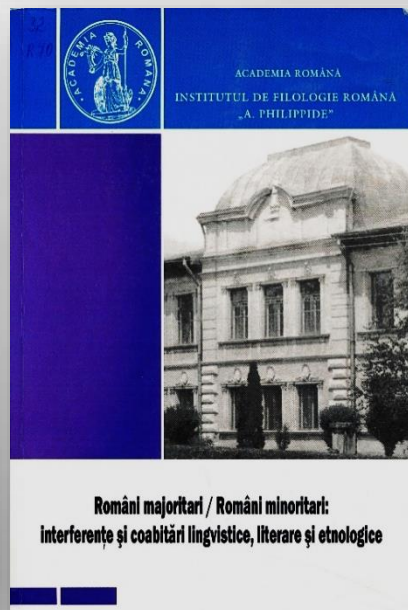

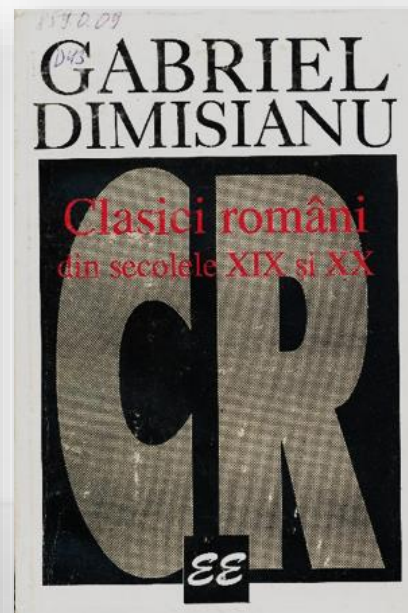

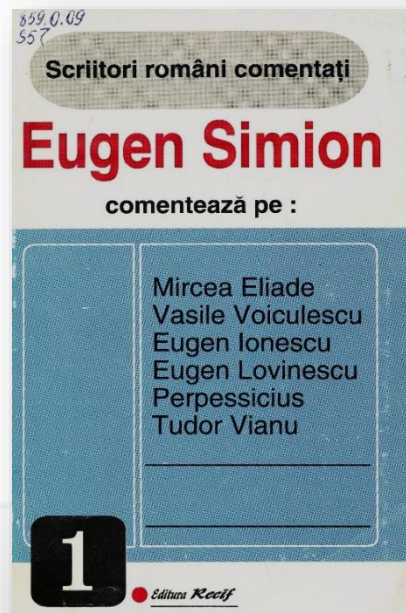

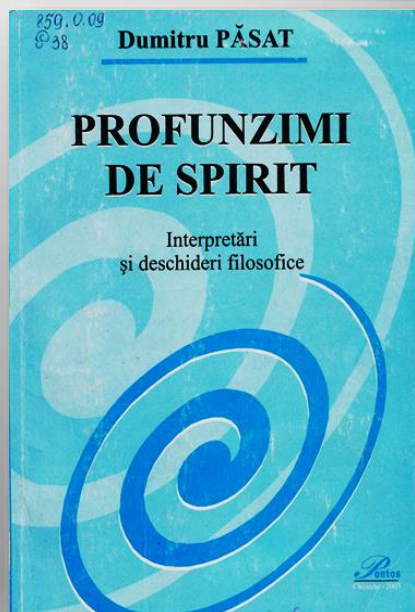

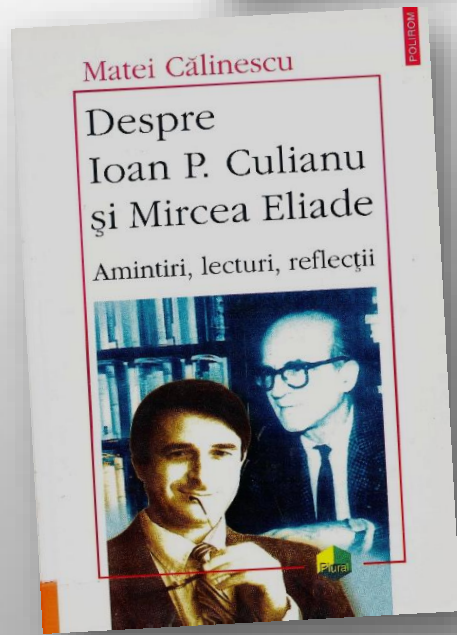

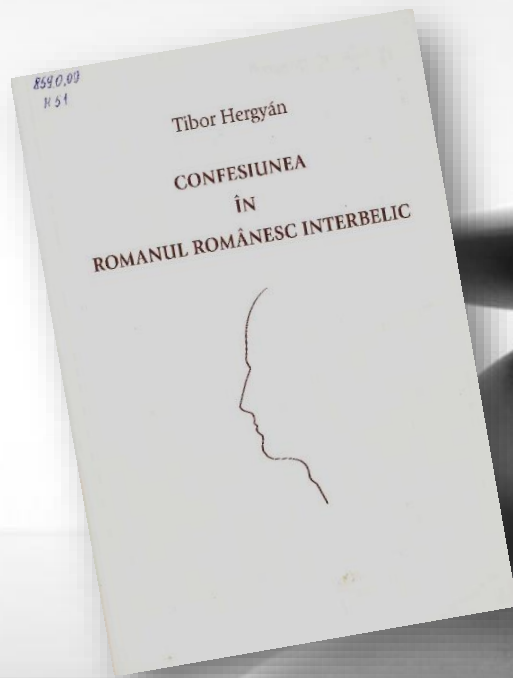

„Personalitatea enciclopedică de tip re-nascentist, Mircea Eliade face parte din familia spirituală a lui Dimitrie Cantemir, B. P. Hașdeu, N. Iorga. Istoric al religiilor, orientalist, etnolog, sociolog, folclorist, ese-ist, nuvelist, romancier, dramaturg, memo-ralist – iată câteva din multiplele laturi ale activității sale”

*Mircea Handoca*

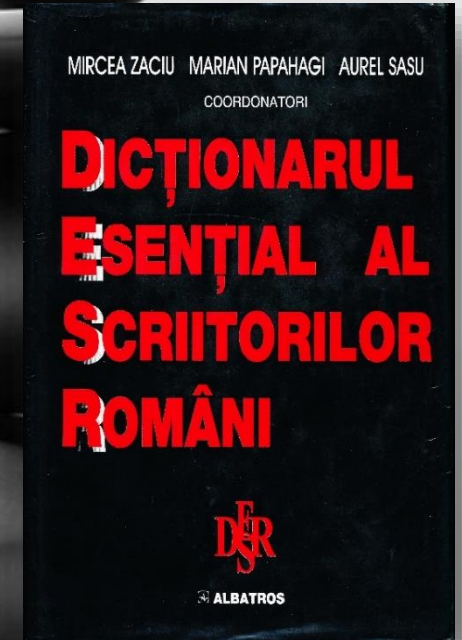

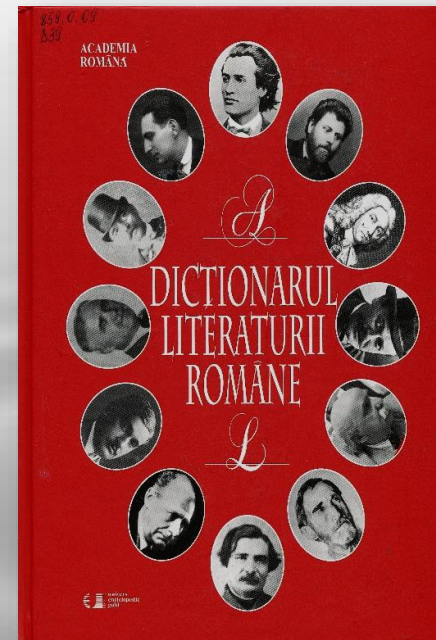

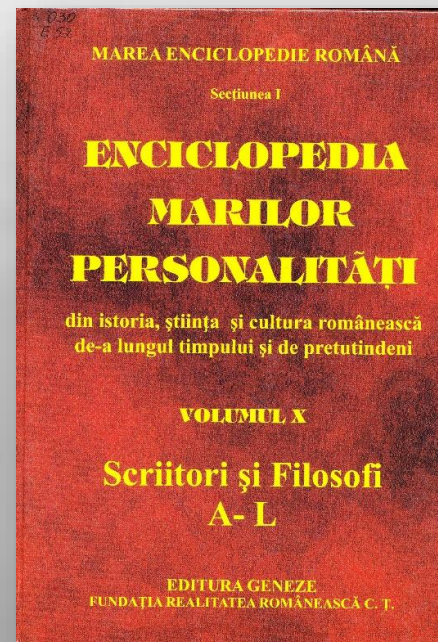

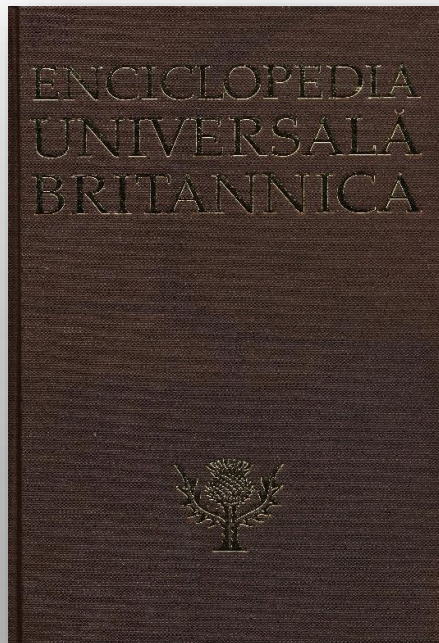

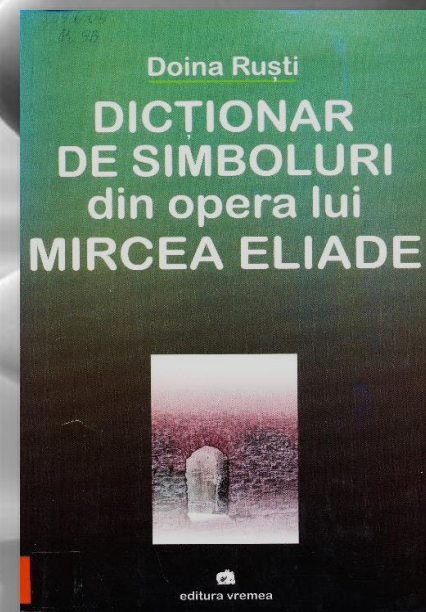

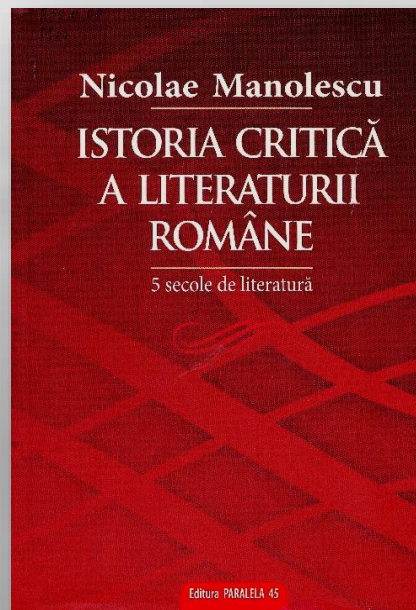

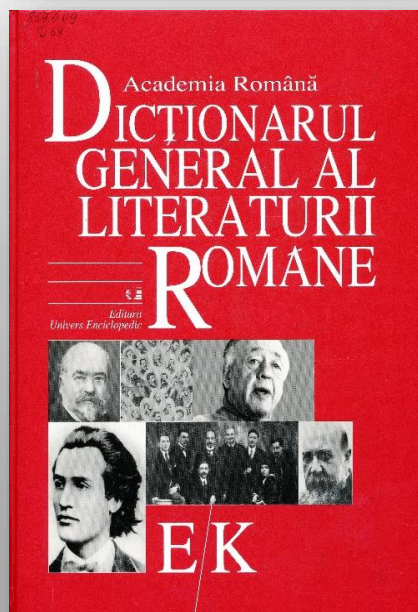

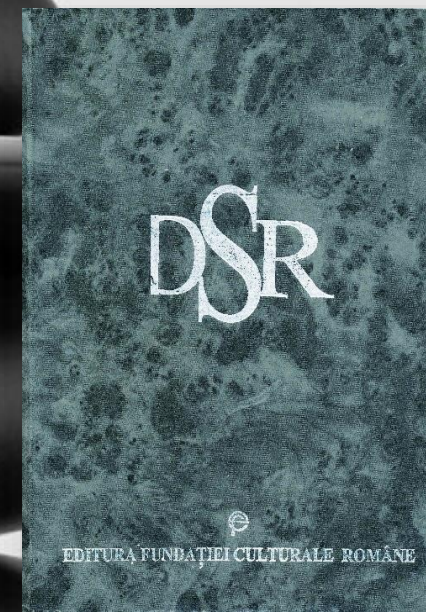

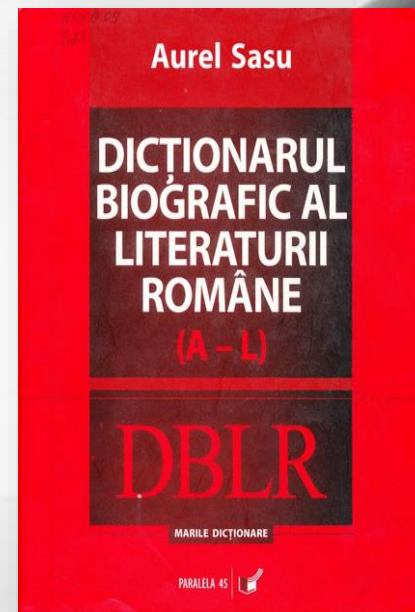

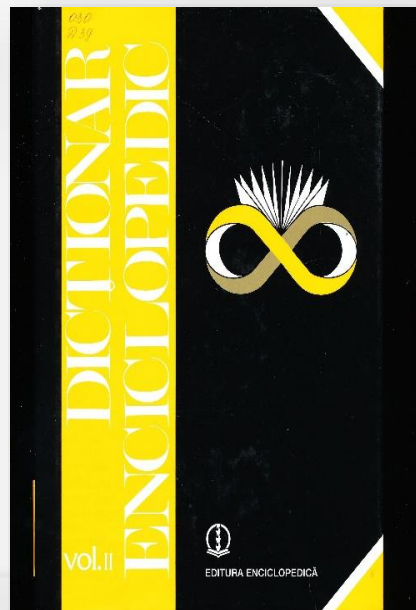

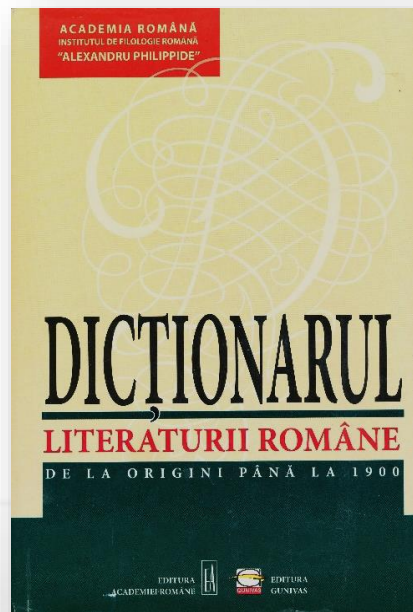

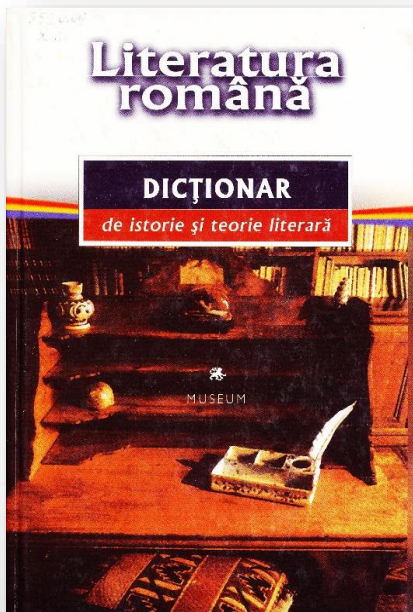

# PREZENȚE ÎN SURSE DE REFERINȚE

„Eliade este în general considerat drept principalul și cel mai ascultat dintre toți istoricii religiilor și autoritatea sa în ceea ce privește interpretarea miturilor și simbolurilor este universal recunoscută.”

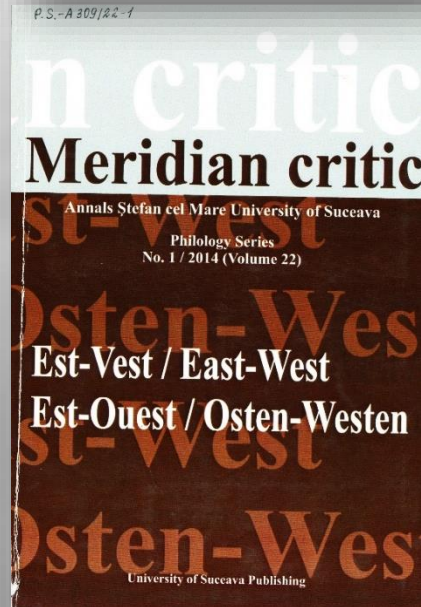

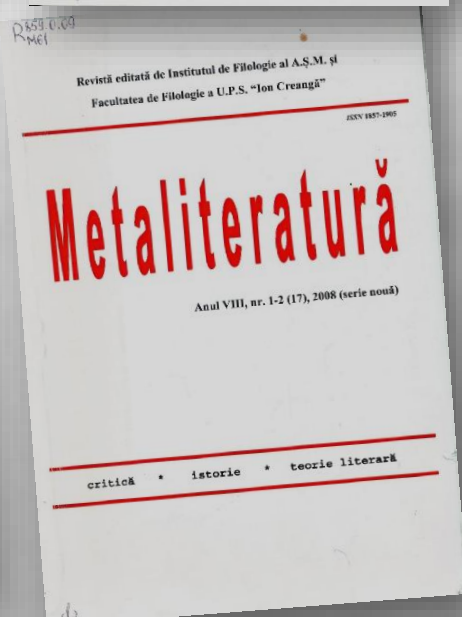

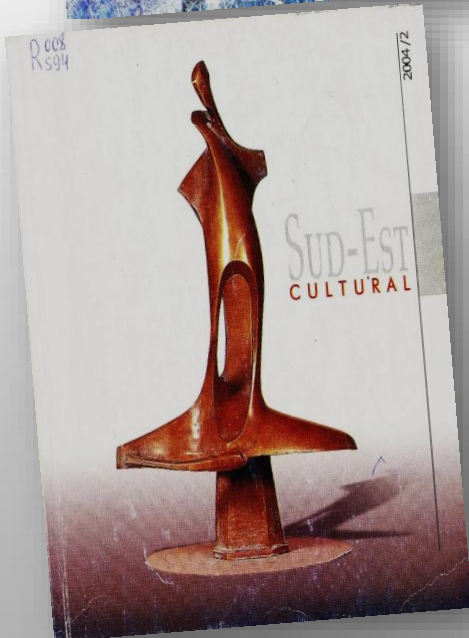

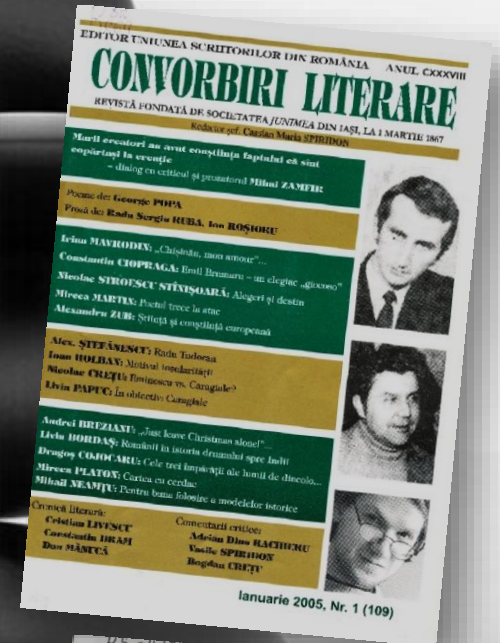

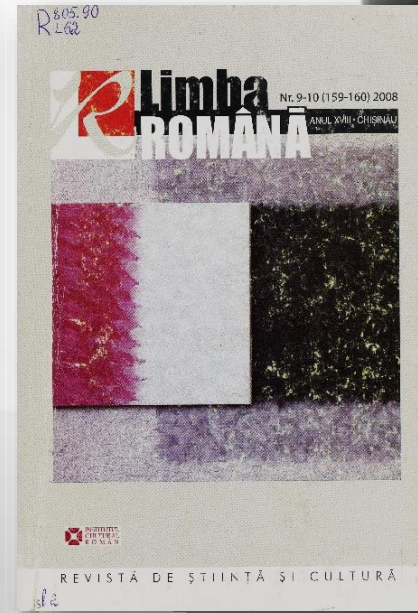

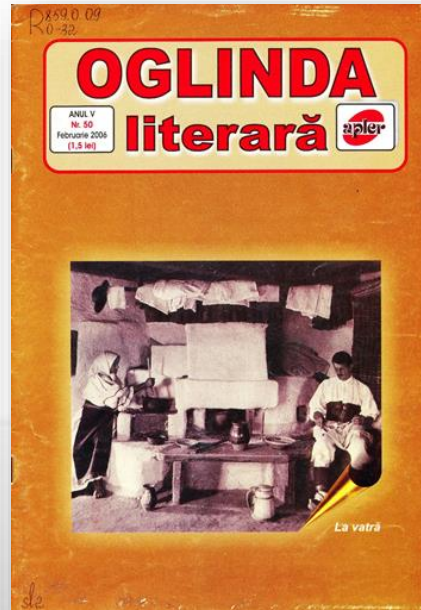

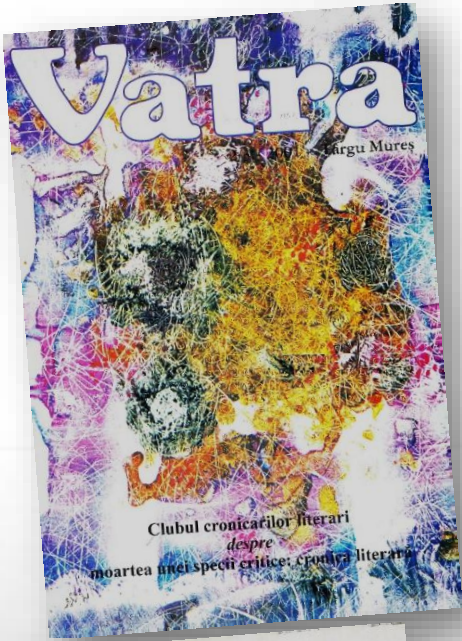

*Allen Douglas*

**Mircea Eliade (1907-1986)**

Eliade was educated as a philosopher. He published extensively in the history of religions and acted as editor-in-chief of Macmillan's *Encyclopedia of Religion*. The influence of his thought, through these works and through thirty years as director of History of Religions department at the University of Chicago, is considerable.

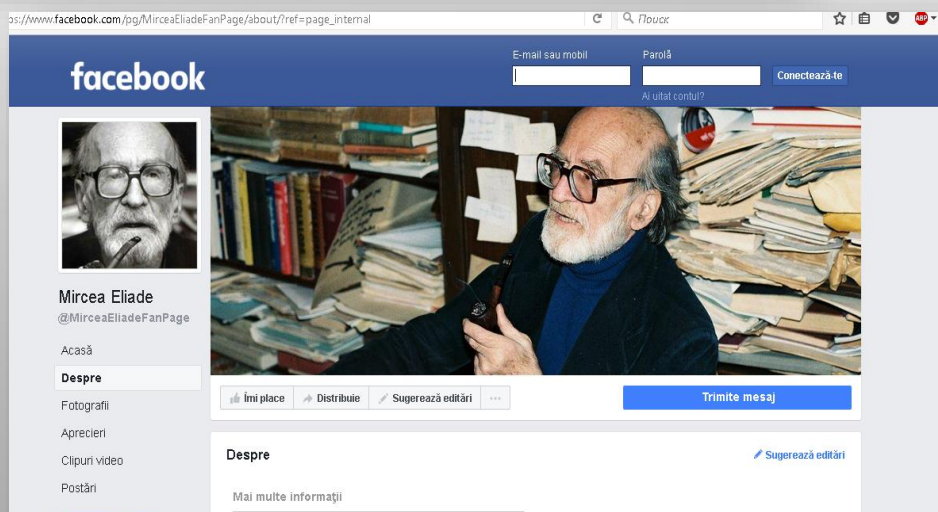

Eliade's analysis of religion assumes the existence of "the sacred" as the object of worship of religious humanity. It appears as the source of power, significance, and value. Humanity apprehends "hierophanies"—physical manifestations or revelations of the sacred—often, but not only, in the form of symbols, myths, and ritual. Any phenomenal entity is a potential hierophany and can give access to non-historical time: what Eliade calls *illud tempus* (Latin for 'that time,' I tend to think of it as 'yonder time'). The apprehension of this sacred time is a constitutive feature of the religious aspect of humanity.
