***„Numele, ca și oamenii, călătoresc prin ani, într-un târziu, se uită.
Ba și confuzie generează în mintea curioșilor de mâine.
Faptele însă rămân. Imposibil să le ascunzi. Facultatea Științe ale
Educației, Psihologie și Arte muncește cu zel, aidoma unei
servitoare inteligente, producând an de an specialiști versați,
entuziaști incurabili, ingineri ai sufletelor omenești, în acest
prezent devorat de contradicții și imprevizibilități”.***

SUMMARY

In this paper the author presents the professional development opportunities for the university librarians from Republic of Moldova within three international projects: Modern Information Services for Improvement Study Quality (MISISQ); ERASMUS + „Library Network Support Services (LNSS): modernizing libraries in Armenia, Moldova and Belarus through library staff development and reforming library services”; „Modernization of academic library services in Moldova” funded by the Norwegian Cooperation. Also, the author focuses on national and international basic legal acts on continuing professional development. Librarians' training facilities, participation in conferences, trainings, workshops have increased thanks to the implementation of these projects.

Keywords: continuing professional development, international projects, legal acts, Deontological Code, skills, university librarians, innovative libraries.

Dezvoltarea personalului rămâne unul dintre cele mai importante aspecte ale activității în orice domeniu. Este o necesitate care crește odată cu apariția noilor tehnologii informaționale și comunicaționale, a diverselor formate și suporturi informaționale, a serviciilor și a cererilor comunității. Într-un mediu în care angajații pot prefera experiențe de formare, acolo unde fondurile de dezvoltare a personalului devin tot mai austere, autoritățile caută alte modalități și mijloace pentru a oferi educație și formare grupurilor socioprofesionale, fie în orele de lucru sau în funcție de ritmul propriu al persoanelor și preferințele lor de timp, fie în cadrul proiectelor naționale și internaționale.

Importanța educației continue este inclusă în mai multe documente de stat și acte de reglementare a activității unui anumit domeniu bibliotecar.

Odată cu implementarea proiectelor internaționale, oportunitățile bibliotecarilor privind formarea profesională continuă au sporit în mod deosebit.

Iată câteva exemple. MISISQ - TEMPLUS - Modern Information Service for Improvement Study Quality - Servicii Informaționale Moderne pentru Îmbunătățirea Calității Studiilor - (2013-2016); <http://misisq.usmf.md/index.php/en-us/>; Implementat de șapte biblioteci universitare, coordonat de parteneri europeni din Kaunas, Lituania, la nivel național - de Biblioteca Științifică Medicală a USMF „Nicolae Testemițanu”.

Bibliotecarii celor șapte instituții au învățat să lucreze în softul ALEPH, cel mai performant soft integrat de bibliotecă, iar pe platforma ExLibris Primo au așezat catalogul partajat în care sunt
